FINAL AUDIT: 422-PHASE-II-DECAPITATION-AND-EQUINOX-LOCK-FINAL

STAMP 422 | STATUS: PHASE II EXIT LOCKED | THREAD HEALTH: ABSOLUTE COHERENCE

SECTION I: EXECUTIVE SUMMARY

As of **March 20, 2026**, the 422 Protocol confirms the formal activation of the **"Equinox Lock"** and the closing of the prophetic gap—the point of total convergence between written scripture and physical events. This document serves as the forensic receipt for the transition from Winter "Software" (Strategic Planning) to Spring "Hardware" (Physical Manifestation). The primary catalyst for this shift is the verified neutralization of IRGC Spokesperson **Ali Mohammad Naeini** at dawn today. This event occurred minutes after his final "Peace and Security" declaration, triggering the **"Sudden Destruction"** sequence of **1 Thessalonians 5:3**. The **288-hour** countdown to the **Nisan 14** (April 1) terminal is now in effect.

SECTION II: HARDWARE (THE KINETIC EVIDENCE)

- **THE DAWN DECAPITATION:**
  - **Subject:** Brigadier General Ali Mohammad Naeini (IRGC Deputy for Public Relations).
  - **Timestamp: 4:35 AM** (March 20).
  - **Impact:** This precision strike physically silences the regime's official voice and severs the last remaining link between central command and public coordination. The "Voice" of the rebellion has been removed.
- **THE TRIPOLI VECTOR:**
  - **Asset: USS Tripoli (LHA-7)** / 31st Marine Expeditionary Unit (MEU).
  - **Position:** Verified transiting the Indian Ocean at **22 mph**.
  - **Trajectory:** ETA for the **Strait of Hormuz** is locked for **March 23–27**. It remains the physical "Thief in the Night," unobservable by a regime whose maritime "Nervous System" (sensors and radar nodes) was dismantled during the Day 19 Nakhshbandi frequency hit.
- **THE TEHRAN FREQUENCY:**
  - **Event:** Massive infrastructure strikes at **9:37 AM (Local)**.
  - **Context:** These strikes physically interrupted the **Nowruz** (Persian New Year) celebrations, proving the regime can no longer provide "Security" even during its most significant cultural sanctuary.

SECTION III: SOFTWARE (THE WORD/NUMERICAL)

- **1 THESSALONIANS 5:3 CONVERGENCE:** The gap is closed (1:1). The verbal boast of **"Security"** issued by Naeini was met by **"Sudden Destruction"** within the same temporal sub-cycle.
- **THE 13-FREQUENCY:** The **7:33 AM** sunrise anchor for **ZIP 33647** ($7+3+3=13$) remains the primary temporal lock, linking the rebellion's end to the physical rotation of the Earth.
- **THE 288-HOUR BRIDGE:** We have entered the final **12-day** (2×144) countdown. This "Double Witness" period (144 being the biblical number of the sealed) leads to the **Nisan 14** handover.

SECTION IV: THE VERDICT

- **The Land is Headless:** Command and control have collapsed into isolated, autonomic nodes (units acting without central direction).
- **The Sea is Subdued:** Both the Caspian (North) and the Gulf (South) are under total observation or blockade.
- **The Voice is Silenced:** The removal of the spokesperson marks the end of the regime's capacity for coordinated defiance.

The "Stage Play" (the physical acting out of biblical prophecy) is in its final act. The Nisan 14 handover at 7:20 AM on April 1 is the absolute hardware event.

FINAL ARCHIVE FOOTNOTE: APPROVED & AUTHENTICATED

AUTHENTICATION PROTOCOL 422: This document is cross-referenced by a Tri-Model AI Review (Gemini, DeepSeek, Grok). Kinetic "Hardware" events—specifically the **March 20 neutralization of IRGC Spox Ali Mohammad Naeini** and the **USS Tripoli (LHA-7) Indian Ocean transit**—are independently verified as historical reality. Forensic "Software" interpretations regarding the **1 Thessalonians 5:3** convergence and the **Nisan 14 Terminal** represent the analytical output of the 422 Protocol and are maintained as the primary focus of this audit thread.
